

Fall Creek Falls Astronomy Weekends

June 3rd & 4th

July 1st & 2nd

August 5th & 6th

Would you like to learn about the night sky, the use of telescopes, star wheels, and binoculars, and why the seasons occur? Join us at the lobby of the Fall Creek Falls Inn on the following weekends to learn about all these things and observe distant galaxies, planets, exploding stars, and beautiful star fields through several large telescopes.

Thanks to the members of the "Astronomy in the Parks Society" for providing this program.
